

**QUANTITY SURVEY PROGRAM**

Construction Services Enterprise in conjunction with Florida Building Material Alliance is offering a Quantity Survey course at the FBMA headquarters in Mt. Dora, Florida.

**Course Description:** A one-day program designed to accurately estimate the quantity of materials for common construction items related to a residential project. Topics to be covered include: calculating areas and volume; basic rules for material take-off; conversation factors and short cuts when determining quantities of lumber, roof materials, interior finishes and other construction materials.

Construction Services Enterprise, Inc. can be reached at 352-343-9356 or via email at [cseedu@aol.com](mailto:cseedu@aol.com)

Seminars and training can be scheduled to meet the needs of your company at your location.

**Tax Deduction**

Seminar expenses (including registration fees, travel, meals and lodging) taken to maintain and improve professional skills are tax deductible (Treas. Reg. 1.162-5).

## INTRODUCTION

Construction Services Enterprise (CSE) is a multi-disciplined consulting firm specializing in construction education, seminars and training for owners and contractors.

Mr. Copare, President of Construction Services Enterprise has an extensive education and experience in the construction industry. He received a BCN from the University of Florida; a Masters Degree in Business from Rollins College; licensed certified general contractor; licensed certified underground utility contractor and maintains a salesman real estate license. He holds a Professional Safety Certification and is approved to teach the 10 hour and 30 hour OSHA Safety courses. CSE is also a construction CEU provider for the State of Florida.

CSE has been providing education programs to the construction industry since 1986, always working with our clients to define their needs, requirements and objectives. CSE will travel out of state to accommodate client needs.

CSE can also provide training and seminars for your professional organization either "in-house" or at a location of your choice.

Phillip B. Copare has spent his entire career in the construction industry. He has worked on numerous commercial projects early in his career, worked with Dade County Schools after Hurricane Andrew. He has been a member of the American Arbitration Association, also completing the State of Florida Mediation Training Program, and a certified Master Trainer with National Center for Construction Education and Research (NCCER), teaching both the Project Management and Supervisory Academies since their inception. In addition, he serves as the Educational Director and Safety Specialist for FBMA.

Mr. Copare brings to the classroom his dynamic and unique brand of education with **real life** experiences and examples.
